EMPLOYMENT

---

*Apogee Management Group, Portsmouth, NH*

**Project Management Consultant**

1998 - Present

We help companies transform their opportunities and expectations for sustainability and growth into tangible outcomes through the synergy of our project leadership, process engineering expertise and management approach.

*GI Plastek, Newburyport, MA*

**Manufacturing Manager**

1992 - 1998

Directed the manufacturing operations for a \$17M reaction injection molding plant including plant maintenance; production supervision for two shifts; materials management; production control; environmental, health & safety and new technology development.

**Technical Manager**

Stabilized and improved existing manufacturing process technology through procedural change and upgraded equipment and control systems performance. Also implemented new manufacturing technologies.

*University of New Hampshire, Durham, NH*

**Research Associate**

1989-1992

Supervised the polymer research laboratory, which involved personnel management, directed experimental work and made presentations at technical conferences. Research was funded by grants from the federal government and private industry.

*Engineering Consultant, Portsmouth, NH*

Provided technical project management including process engineering expertise for clients in the plastics and chemical processing industries.

1987-1992

*Amesbury Machine Manufacturing, Seabrook, NH*

**Technical Manager**

1984-1987

Managed the design, build and startup of plastics processing equipment for the reaction injection molding industry.

Rob A. Cimini, Project Manager
